

## Set up a practice area

This setting allows students to receive their originality report shortly after first submission and all subsequent reports are delayed 24 hours to prevent multiple submissions for minor changes. The submitted papers are never stored in the Turnitin repository. Once the due date is passed all originality reports are updated.

**NOTE:** Each Turnitin (Feedback Studio) assignment area is limited to 1500 papers per assignment. When a student resubmits in a practice area the earlier version is overwritten and a new Originality Report is generated. So even with large cohorts the limit will not be exceeded.

This creates a Turnitin Moodle Direct assignment that links to both the Moodle Gradebook and an assignment in TurnitinUK so that you can view the results and add feedback etc. via Turnitin itself.

## Sample Summary Instructions

Please submit your work as [WORD (.doc or .docx) or PDF file] which must not exceed [40MB] (preferably in text format only and no images).

You may submit as often as you like before [the due date]. You will be able to see the Originality Report so that you can improve your work before submitting to a separate final Turnitin submission area. (For help with interpreting this report see [Viewing your Similarity Report](#))

You must click the Copyright Declaration box before you can submit anything.

On successful submission, you will see your file name, a paper ID number, a submission date and an Originality Report pending notice by your name in the Turnitin activity ([see example](#)). If you do not see this information on screen or do not receive a confirmation of submission email from Turnitin (including a receipt #) in your UAL e mail account ([see example](#)) then YOU HAVE NOT SUCCESSFULLY SUBMITTED.

For general help with file submissions etc please see [Student: Turnitin \(Feedback Studio\) Submission](#)

If you cannot submit your assignment then please contact [Insert email address]
